Report on Technical Visit to Door-Darshan Kendra Raipur

SOS in electronics & photonics department of pt. Ravishankar Shukla University organized a technical visit on 9th September 2017 to DOORDARSHAN KENDRA RAIUR. Student of M.tech 1st sem, M.sc. 1st & 3rd sem and faculty members were present.

The purpose of this visit was to develop interest among the students and enhance their practical knowledge. At Doordarshan Kendra we were received by S.K. CHAKRABARTI sir and doordarshan team members. They took us to the studio where they conduct gathering program. The team member gave some information about cameras. Then they showed us the working of video and audio control room and explain us about theories and actual practical work behind that.

. They also showed us the transmission and receiver control room and explained about uplink and downlink frequencies. There is a transmission tower of height 150 meter

At Doordarshan we visited the entire studio and all the students highly enjoyed their entire visit. The visit was knowledgeable for all of us. We are extremely thankful to the Director, Doordarshan Kendra, Raipur for such a wonderful and knowable visit.
