

Bhanzu (formerly known as exploring infinities) is a Maths learning platform for students from the age group of 6-16 years old. We are a Series A (\$15Mn) funded Ed-tech startup based out of Bangalore and founded by the World's Fastest Human Calculator - Neelakantha Bhanu Prakash. With a meticulously designed curriculum, we help students become 4x quicker and better at Maths by nurturing their cognitive abilities and building their core Maths acumen.

Bhanzu is hiring for multiple positions across the below-mentioned roles:

Management Trainee - Sales (US Process) [CTC - 11 Lakhs]

Management Trainee - Sales (International Process) [CTC - 9 Lakhs]

Selection processes can be conducted entirely virtually, as deemed appropriate for each role. Selected final year students will be requested to join us after graduation, while the alumni can join immediately.

If interested, connect anytime on email (Walzeena Lavita Dsouza <walzeena.dsouza@expinfi.com>) or via Call/ WhatsApp at +91-6282272916.

The link for online application form for students and alumni to register their interest before we conduct the selection process is as follows:
